

A low-cost, alternative service provider

MedPro Disposal is an alternative, low-cost medical waste disposal solution that is now the **preferred vendor for PSMA Connect**. MedPro is now available at you location! Last year alone, we helped thousands of practices realize an average of **\$5,500** in annual savings, or more than **\$16,500** over their contract period.

How did we do this? We drove awareness and provided a free, no-obligation quote and assessment all within 5 minutes from initial point of contact. The vast majority of practices were not aware that they were **dramatically** overpaying for the following services:

- Medical & Biohazard Waste Disposal (including Sharps Collection & Removal)
- Pharmaceutical Waste Disposal (controlled and non-controlled)
- OSHA Compliance Training

As a preferred vendor, MedPro Disposal has an exclusive offer only for PSMA Connect members. We are offering our medical waste disposal service with at least a **20%** savings to you (when compared to your current vendor) and we'll offer 3 months of **free** OSHA Compliance training if you call before October 21st!

Please call **(888) 278-4841** and mention this letter, or visit us at **medprodisposal.com/psma**
As an added bonus, all responses to this letter will also be eligible for:

- Free 2016 Office Posters; Medical Waste Do's and Don'ts
- Free access to our resource library including our Guide to Managing Medical Waste
- \$50 Dollar Visa Prepaid Cards for referring other practices
- Opting into our annual webinar and newsletter series, including practice management requirements

We would love an opportunity to earn your business and save you both time and money with our service offerings. Thank you for your consideration.

Sincerely,

Dan Hansen
President
MedPro Disposal
