

Welcome!

to a world of savings

PSMA CONNECT is a group purchasing program. We combine the purchasing power of over 25,000 physician members and negotiate directly with manufactures and service providers to acquire the best possible costs on the goods and services our members use.

Membership is FREE, and there are no purchasing requirements.
In partnership with Physicians Sale & Service/McKesson we help you control your costs.

Take a look at what a few members have to say about PSMA CONNECT.

"It is nice to work with such a great company (PSMA CONNECT) and be able to access the discounts without any cost. They are giving us some additional companies we have not had access to in the past. At this time with the economy any saving is a benefit and I love that we can pass it on down to our staff."

*Neurology Consultants Chtd.
Angela, Assistant Office Administrator*

"We are connected to the office supply savings. I'm also saving \$25.00 plus on my monthly bill from Sprint, Thanks again for all your help."

Christie, Office Manager

"I recently joined PSMA Connect and on the very first office supply order we saved 25%. It was easy to join, no cost incurred, and the best part, the companies available to PSMA members are companies that we already order from. The discounts from many of the companies also apply to our staff. There has been no down side, just savings that will continue to benefit the practice."

*Orthopedic & Sports Medicine Assoc.
Karolyn, Office Administrator*

"We bought 5 pairs of scrubs for about 25 employees as we have been doing for years. We were very happy with our purchase. Not only were they 25% cheaper, we also received them in record time with no mistakes. The company was very easy to work with, efficient and organized."

Linda, Office manager

"We are saving with Staples and Shredit. The price for document destruction is a substantial savings (\$85 dropped to \$32 per pickup)!"

Gavin, Office Administrator

Thank you for considering PSMA CONNECT - There are no risks - only savings.
